Career Objective

As a recent Information Technology graduate, I am eager to apply my knowledge and skills in a dynamic work environment. I am looking for an opportunity to work in a forward-thinking company where I can contribute to impactful projects, enhance my technical expertise, and grow professionally. Passionate about front-end development, I am committed to continuous learning and innovation.

Personal Project

Cosmetic E-commerce Application

May 2024

Description: Description: The project “E-commerce Web Application” is built using ReactJS, focusing on developing an online shopping platform that allows users to browse, purchase, and manage various products conveniently. The application is designed to provide a user-friendly, fast, and efficient shopping experience, making it easy for users to search, add to cart, and securely complete transactions.

Position: Front-End Developer.

Responsibility:

- Develop and implement the front-end using ReactJS and modern UI frameworks.
- Collaborate closely with the back-end team to ensure seamless integration.
- Participate in task organization and assignment, ensuring clarity of roles and responsibilities within the team.
